

School-Wide Enrichment Services (SWES) and Additional Academic Enrichment Services (AAES)

What is the goal of SWES and AAES?

The North Shore Central School District seeks to provide all elementary students with appropriate challenges designed to achieve individual success. Because we understand that children exhibit varying enrichment needs at different stages of development, we provide a range of flexible learning opportunities.

What is SWES?

All children in grades K through 5 receive School-Wide Enrichment Services. Through the collaboration of the classroom teachers and the school's enrichment teacher, Mrs. Krupin, all students have the opportunity to collaborate with their peers as they pursue rigorous challenges, utilize creative and critical thinking skills, and develop their unique talents.

What SWES opportunities are offered to students?

SWES – Grades K – 5 Push-In Enrichment:

Students in grades K – 5 meet with Mrs. Krupin once in a 6-Day cycle to investigate engaging challenges in the following areas of interest:

Kindergarten – Science Discovery and Exploration
First Grade – Scientific Inquiry and Experimentation
Second Grade – Scientific Inquiry and Experimentation
Third Grade – Scientific Inquiry, Experimentation & Analysis
Fourth Grade – Complex Mathematical Problem-Solving
Fifth Grade – Scientific Method and Science Research

SWES – Grades K – 5 In-Class Enrichment Services:

The following enrichment support services are offered to students within the classroom:

- Differentiated instruction through teacher consults and collaboration
- Independent Studies, Anchor Activities, Enrichment Learning Centers

SWES Alternative Learning Experiences:

The following interest-based, learning experiences are organized to broaden students' access to unique enrichment experiences:

- Enrichment Presentations: Tipi Ted and the Wilderness Traveling Museum, The Living Planet, Mad Science, Citizens Campaign for the Environment
- School-Wide Enrichment Clubs: 5th Grade Presidential Election Club, 3rd – 5th Grade S.T.E.M Discovery Club, 4th Grade Math Olympiads Club, 5th Grade Mock Trial Club
