

# Sea Cliff School Garden

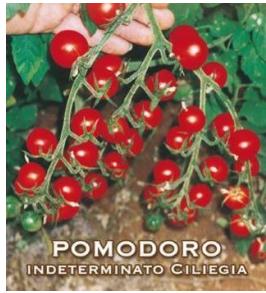

## A gift to celebrate the Spring

Your Sea Cliff School PCA wishes you a happy Spring and a fun-filled Summer with this organic heirloom Italian tomato seedling from our own school garden.

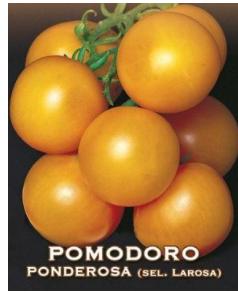

*Buon appetito!*

*a Grappoli d'Inverno*

*Indeterminato Ciliegia*

*Ponderosa sel. Larosa*

*Reisentraube*

### Planting guidelines:

Your seedling is in a biodegradable pot. Gently tear off the bottom of the pot to allow faster root growth and plant the entire pot in full sun, in a soil rich with organic matter (up to 50% compost). Bury the pot and seedling stem up to the bottom leaves, to completely cover the hairy lower part of the stem. Use a sturdy 7'-8' stake to gently tie the growing plant for support; it will reach 5'-8' tall. Hand water, checking daily and taking care to keep the plant well-watered during dry spells.
